U.S. Pledges to Work For a Just Peace

WASHINGTON (Reuters). — President Eisenhower pledged in his "State of the Union" message to Congress yesterday that in his final year of office he would continue to work for a just peace.

"I shall devote my full energies to the task of promoting greater world understanding, negotiations to reduce international discord, and constant liaison and communications with the Congress and the American people on issues both domestic and foreign," he said.

The President declared that the U.S. was always ready to take part with the Soviet Union in serious discussions on any subject that might lead to peace with justice.

He said that he remained determined now, as he was when he first became President seven years ago, that the U.S. should become "an ever more potent resource for the cause of peace."

Hope for Arms Talks

The President expressed the hope that an avenue towards "the true foundation of peace" might be found through the reopening on January 13 in Geneva of negotiations between the U.S. and the Soviet Union on a controlled nuclear test ban.

Still another avenue might be found in the field of disarmament. One obvious road on which to make a useful start was in the widening of communications between the West and the Soviet Union.

Ready to Take Part

He expressed his belief that the industrialized nations were ready to participate actively in a new cooperative effort to help underdeveloped nations.

The President gave high priority in his message to the necessity for all industrialized nations of the non-communist world to work together in a new cooperative effort to help underdeveloped nations.

Spectre Of Swastika

ABOUT one-third of Israel's population is made up of Jews who fled from Eastern Europe. There is hardly one among them who did not have a child, parent, brother or sister or other close relative among the six million Jews murdered by the Nazis during World War Two. For all of them — these hundreds of thousands who have personally experienced Nazi brutality and then "fortunate" ones who knew about it from their next of kin — this week's wave of swastika suddenly appearing on the walls of synagogues, churches, public buildings and private homes on three continents recalled the spectre of death.

For Israel as a whole, the signs demonstrating the virulence of the Nazi infection and its spread into all corners of the world have been of significance in more than one respect. Besides being the land where so many survivors of the Nazis found a new life, Israel is also strongly conscious of its obligations as a Jewish State to befriend Jews persecuted for their race or religion anywhere and it was this feeling that led to the instructing of Israel's diplomatic representatives in countries where anti-semitic acts had taken place to submit a note expressing the nation's profound shock and concern. The note quoted a Government statement made in the Knesset by the Minister of Justice.

Israel's political life had suffered some of its bitterest moments over the question of Germany. Some years ago, Herut demonstrators who protested against the Reparations Agreement with Bonn attempted an attack on the Knesset. Israel's latest Cabinet crisis, last summer, broke out in connection with the sale of Israel's security to Germany in West Germany. Though Prime Minister Ben-Gurion at that time defended the arms sale as being vital for Israel's security, he also stressed his conviction that "the Germany of today is not the Germany of Hitler."

The events of the past week were bound to lead to a reappraisal of this attitude. In the Knesset it was Herut who again raised the question on a motion for debate (see "Parliamentary Report"). Israel's additional reason for grave concern over the revival of Nazism in the "traditional" close relations between the Nazis and the Arab leaders. It was no coincidence that the re-ignition of the German propaganda machine in Berlin. After the war, hundreds of Nazi murderers were welcomed with open arms in Egypt, Saudi Arabia and other Western Powers were strenuously looking for the last years of the war, the German propaganda machine in Berlin. After the war, hundreds of Nazi murderers were welcomed with open arms in Egypt, Saudi Arabia and other Western Powers were strenuously looking for the last years of the war, the German propaganda machine in Berlin. After the war, hundreds of Nazi murderers were welcomed with open arms in Egypt, Saudi Arabia and other Western Powers were strenuously looking for the last years of the war, the German propaganda machine in Berlin.

Goldmann's Warning

BESIDES the statement by the Israeli Government in the Knesset, the anti-semitic outbreaks were also the subject of a conference of the Executive of the World Jewish Congress meeting in Jerusalem, where the charge was also voiced that an in-

ternational Nazi underground might be at work. The firmest stand was taken by Dr. Nahum Goldmann, President of the World Jewish Congress, who was in Jerusalem attending the sessions of the Zionist General Council. Dr. Goldmann told correspondents — and said so again in his closing address at the Zionist Council — that the revival of anti-semitism in Germany represented a greater danger for Germany and Jews than for the Jews, since it was only an expression of the revival of the spirit of aggressive nationalism and militarism which had characterized Germany in the past.

Zionist Changes

THE Zionist General Council, which convened on December 28, concluded its sessions this week by adopting a large number of important, as well as less important, resolutions. Among the more important — and the most hotly debated — was the resolution on the outbreak of anti-semitism. While no one opposed the original draft expressing concern and voicing a warning over the latest events, there was a strong argument over the resolution on the outbreak of anti-semitism. While no one opposed the original draft expressing concern and voicing a warning over the latest events, there was a strong argument over the resolution on the outbreak of anti-semitism.

Finally, a milder version of the proposed two amendments was incorporated in the resolution, stating the Zionist Council's view that "the duty of self-defence is a legitimate and necessary one upon every Jew in every place where his existence, safety and honour are threatened." These amendments prove that the only Zionist solution to the Jewish problem was and remains the lagathering of the Jewish people in its historic homeland.

Other resolutions dealt with the rights of Soviet Jews to Jewish life and to migration to Israel, the Arab boycott and the blockade of Suez, the importance of the Jewish Na-

tional Fund, the Herut Year, the intensification of Zionist and Jewish education in the Diaspora, etc. The most important act of the Council, however, was the adoption of several basic amendments to the Constitution of the World Zionist Organization, introduced, some at the stage of the several months-long talks with Air France, was diplomatic intervention sought by El Al, the reports of the failure to reach immediate agreement came as a complete surprise to the Israeli Foreign Ministry, which was left with no alternative but to confirm the Quai d'Orsay version of the entire affair.

Day's Optimism

A HAPPY New Year and a Happy Free Passage! We don't wait another whole year for free passage" (through the Suez Canal) said U.N. Secretary-General Dag Hammarskjöld to Foreign Minister Golda Meir as they sat next to each other at the top table during the gala reception that inaugurated the Independence celebrations of the former French U.N. Trust Territory of the Cameroons in Yaounde, the new capital.

Still, the occasion was a social one, and there was no time for Mr. Hammarskjöld to elaborate on what exactly he had in mind in expressing such optimism in the face of the U.A.R.'s continued defiance. The Greek freighter, *Aspatria*, with its 248-ton cargo of Israeli cement, which was the last of its kind to be loaded at Port Said, with the Danish vessel, *Ima Tof*, entered the new year in its eighth month of detention at the entrance of the Suez Canal.

One thing, however, was obvious from Mr. Hammarskjöld's informal New Year greeting — the Suez blockade issue is very much on the mind of the U.N. Secretary-General, and Israel's legal and international right to free passage have at least the official backing of one high international body. It now remains for both Mr. Hammarskjöld and Dr. Ralph Bunche, the Under-Secretary for Economic and Social Affairs, to translate their support of Israel's case into action. The opportunity for such a step is not far off and when Mr. Bunche arrives in Cairo tomorrow for preliminary talks with the U.A.R. authorities, he will have received a very clear picture of Israel's present attitude to the Suez from Foreign Minister Golda Meir, who met with him in Moscow on Tuesday.

Mr. Hammarskjöld is to follow within a fortnight with a visit to Cairo. Meanwhile the Djibouti purchasers of the Israeli cement cargo on board the *Aspatria* were displaying concern about the fate of their goods and planning to take strong measures to effect their immediate release.

Forced Landing

M JORDAN, a leading official of the Quai d'Orsay's Economic Division, last Monday requested Mr. Mordechai Schneerson, the Chief of Affairs of the Israeli Embassy in Paris, to attend an urgent meeting at the French Foreign Ministry in order to resume the Israel Government that no political decision had been involved when Air France last month broke off talks with El Al on extending joint operations of the two airlines to the Paris-New York route.

At the same time, an Air France spokesman in Paris denied earlier reports which had stated that a draft agreement had been initiated and was expected at a later stage. He stressed that the French national airline intends resuming the talks with El Al in a few months, when Air Union, comprising Air France, Alitalia, Lufthansa and Sabena has actually begun functioning, and Air France's position will have become clearer.

What could have easily developed into another major "economic incident" marring the friendly relations between France and Israel, was thus stopped at an early stage by Mr. Jordan's unusual step and Mr. Schneerson's quick reaction. As much for the official

version of the story, which apparently had been originated in circles close to El Al, both in Paris and Tel Aviv, when some of the Israeli airline officials decided to embark on their own foreign policy-making without consulting with the Foreign Ministry, it was a complete surprise to the Israeli Foreign Ministry, which was left with no alternative but to confirm the Quai d'Orsay version of the entire affair.

Real Rain

THROUGHOUT the country over the last weekend, rain fell in some of the most important crops of the country's winter grain crop from heavy destruction, but for many crops in the North-Negot the rains came too late and they will have to be written off as a total loss.

Iraq's Party Possibilities

By Anna Barer

KASSEM has kept the political scene in Iraq in a state of suspense for several months. He has made five months ago to allow the functioning of political parties before January 1, 1959 — Iraq's Army Day. A new Law of Associations, replacing the one issued on November 24, 1954, which banned party political activity, came into force on Wednesday. The main features of the new Law are as follows:

Fares Up

THE Ministry of Transport put its foot down this week and approved an increase in bus fares which was only slightly more than half of what the bus cooperatives had asked for. The approved fares were of the order of 10 per cent on interurban lines and 15 per cent on urban lines. The last stage of the negotiations with the Interministerial Committee on Fares, the cooperatives had asked for 15 and 25.5 per cent respectively.

The decision in effect brought to an end month-long negotiations on the extent of the increase in the bus fares, which were not ceased by the Government's decision to abolish its subsidy to the bus cooperatives. This decision was actually taken over a year ago, and the subsidy was at first not included in the 1958/59 ordinary budget. However, the year's considerations apparently were sufficiently strong to put off implementation of the decision, which was accompanied by a rise in fares, until after the polling.

The fare increase, which is the first since September 1956, will, it is estimated, result in a rise of 0.67 points in the Cost of Living Index. In an attempt to meet the cooperatives' demands for the relatively low increase, the Ministerial Economic Committee authorized the Minister of Transport to be held at some future date, when the Government would be in a position to make a decision in principle to continue payment of a partial subsidy to cover half of Hammarskjöld's expenditure, the other half being covered by an increase in fares.

The new fare hikes are to go into effect on January 1, 1959. It is estimated that it will take time to work them out. On February 1, however, fares ending in a half paise (1/2 p) will be rounded out upwards to full paise. This was proposed in order to compensate the cooperatives for the lag between the Government's decision to abolish its subsidy on January 1 and the introduction of the higher fares on March 1. The cooperatives were apparently caught unaware by the Ministry's abrupt decision, which was all the more surprising since the previous Minister, Mr. Carmel, as well as Mr. Ben-Gurion, were known as supporters of their point of view in their fight with the Interministerial Committee.

Despite the fact that Mr. Ben-Gurion declared that the Government's decision was final, the cooperatives' immediate reaction was to reject the proposed increase in fares. Whether the cooperatives would decide to call a strike as they did in 1956, thereby bringing all bus traffic to a halt, would only be known after their official managing bodies meet and decide on their strategy during the coming few weeks.

The profession of Communist members is as usual, quick to condemn swastika tropes, and already forewarned another Hitler. An occasional swastika, though by no means all of them, through a swastika and says who Jews should live abroad.

The national mind begins to be revived of violent anti-semitism in Germany, and all that that implies. It is tempting to match swastika tropes with the Communist next week. It may be possible to see more clearly by then.

Real Rain

THROUGHOUT the country over the last weekend, rain fell in some of the most important crops of the country's winter grain crop from heavy destruction, but for many crops in the North-Negot the rains came too late and they will have to be written off as a total loss.

The profession of Communist members is as usual, quick to condemn swastika tropes, and already forewarned another Hitler. An occasional swastika, though by no means all of them, through a swastika and says who Jews should live abroad.

The national mind begins to be revived of violent anti-semitism in Germany, and all that that implies. It is tempting to match swastika tropes with the Communist next week. It may be possible to see more clearly by then.

Real Rain

THROUGHOUT the country over the last weekend, rain fell in some of the most important crops of the country's winter grain crop from heavy destruction, but for many crops in the North-Negot the rains came too late and they will have to be written off as a total loss.

Iraq's Party Possibilities

By Anna Barer

KASSEM has kept the political scene in Iraq in a state of suspense for several months. He has made five months ago to allow the functioning of political parties before January 1, 1959 — Iraq's Army Day. A new Law of Associations, replacing the one issued on November 24, 1954, which banned party political activity, came into force on Wednesday. The main features of the new Law are as follows:

Fares Up

THE Ministry of Transport put its foot down this week and approved an increase in bus fares which was only slightly more than half of what the bus cooperatives had asked for. The approved fares were of the order of 10 per cent on interurban lines and 15 per cent on urban lines. The last stage of the negotiations with the Interministerial Committee on Fares, the cooperatives had asked for 15 and 25.5 per cent respectively.

Forced Landing

M JORDAN, a leading official of the Quai d'Orsay's Economic Division, last Monday requested Mr. Mordechai Schneerson, the Chief of Affairs of the Israeli Embassy in Paris, to attend an urgent meeting at the French Foreign Ministry in order to resume the Israel Government that no political decision had been involved when Air France last month broke off talks with El Al on extending joint operations of the two airlines to the Paris-New York route.

At the same time, an Air France spokesman in Paris denied earlier reports which had stated that a draft agreement had been initiated and was expected at a later stage. He stressed that the French national airline intends resuming the talks with El Al in a few months, when Air Union, comprising Air France, Alitalia, Lufthansa and Sabena has actually begun functioning, and Air France's position will have become clearer.

What could have easily developed into another major "economic incident" marring the friendly relations between France and Israel, was thus stopped at an early stage by Mr. Jordan's unusual step and Mr. Schneerson's quick reaction. As much for the official

Parliamentary Report

SWASTIKAS AND REBELS

By Leo Ben-Dor

Nobody really knows what to think of the rash of swastika. Knesset members who catch themselves in a swastika state — perhaps the whole thing in the manner of London's *Evening Standard*, and say that crime always comes in waves. If one swastika comes on one day, another the next morning will produce an upsurge, and so on. And meanwhile they catch themselves doodling little swastikas on the edges of packets of cigarettes. The profession of Communist members is as usual, quick to condemn swastika tropes, and already forewarned another Hitler. An occasional swastika, though by no means all of them, through a swastika and says who Jews should live abroad.

Economic News from Abroad

End of Shipping Slump

At long last the world shipping situation appears to be heading towards a post-war improvement. The November freight rates to over \$2.10 a tonne, the highest level of the current slump, have fallen to the level of 1947-1948. The decline in the level of the increase that has taken place in the meantime is considerable. The shipping situation has been a source of concern to the world economy since June last, in spite of the fact that the shipping industry has been able to maintain a steady level of output. The shipping industry has been able to maintain a steady level of output. The shipping industry has been able to maintain a steady level of output.

THE JERUSALEM POST

Friday, January 8, 1949

FARMERS are less sentimental concerning their produce than urban consumers, and do not mind a surplus — provided they are paid for it. They are not, however, as much concerned with the surplus as the urban consumer. The surplus is a source of concern to the world economy since June last, in spite of the fact that the shipping industry has been able to maintain a steady level of output. The shipping industry has been able to maintain a steady level of output.

It is of little relevance to their point of view, that in this country most of the surplus is being disposed of by the government. The surplus is a source of concern to the world economy since June last, in spite of the fact that the shipping industry has been able to maintain a steady level of output. The shipping industry has been able to maintain a steady level of output.

After two years of the Board's operation, however, that objective appears as remote as ever. In 1948/49 a subsidiary of I.L.S. was originally budgeted for a price support amounting to £1.5m. In the current year it was hoped to reduce the government's expenditure on the I.L.S. to £1.2m. More than £1.5m. may have to be spent in order to enable the Board to live up to its obligations. More than £1.5m. may have to be spent in order to enable the Board to live up to its obligations.

The situation is, of course, most serious in tomatoes, which have received public attention. The large quantities involved, but the trend is basically the same in other vegetables. In 1957 the tomato surplus amounted to 10,000 tons, but in 1958/59 they are expected to account for 25 per cent of the crop. The tomato surplus amounted to 10,000 tons, but in 1958/59 they are expected to account for 25 per cent of the crop.

Higher Wages in Germany

Wages and living costs in Western Germany are expected to rise during the next few months, as a result of the prolonged boom experienced by that country. In 1958 Germany again had an export surplus of about 3,500 million marks, as much as in 1956. The export surplus of about 3,500 million marks, as much as in 1956. The export surplus of about 3,500 million marks, as much as in 1956.

On the basis of the figures for the period January-November the total trade in 1958 was estimated at a value of £10.5m. In 1957, the trade balance was £10.5m. In 1957, the trade balance was £10.5m.

Stocks and Commodities

Dollar-linked Declined in Tel Aviv

THE first week of the new calendar year brought a decline in dollar-linked bonds with losses ranging between two and four points. It may be recalled that during the week of 1958 the price of dollar-linked advanced rose considerably and new prices are more or less what they had been in the middle of December. Dollar-linked bonds were smaller.

On the other hand, there were good features in the ordinary share section. Bank Leumi and its parent company, Bank Leumi Ltd., rose 1.5 points. Bank Leumi Ltd. rose 1.5 points. Bank Leumi Ltd. rose 1.5 points.

Wall Street Firm

THE end of the steel strike brought a sharp advance in a number of stocks. On January 6, however, profit-taking set in and part of the gains were lost. Dow Jones was 60.82 on January 6 and 60.87 on January 7, compared with 60.97 on December 30.

London Reacts

AFTER having touched new all-time highs the price on the London market set back, but the reaction came in a number of sectors. The index for January 6 as compared with 7.5 a week earlier, was 73.1 on January 6 and 73.1 on January 6.

Paris Quiet

CONDICIONS on the Paris stock market were quiet and prices generally lower. Stocks which had recorded gains recently were worst hit. French oil declined in sympathy with international oil. Gold-mining shares were better, while German issues were generally easier.

Commonwealth is Moving Towards Decimal Coinage

LONDON (REUTERS). — THERE is an accelerating trend towards conversion of currencies to the decimal system in many parts of the British Commonwealth. India has already gone over to it and plans a phased switch to the introduction of metric weights and measures over the next 10 years.

Early in 1958 South Africa will adopt a new unit of currency, to be known as the Rand, equivalent to the present 10 shillings and subdivided into 100 cents. The shilling will be retained, but divided into 10 cents instead of 12 pence. A similar change has been recommended by a Government committee in New Zealand, and Australia is expected to follow suit.

ATOMIC POWER FOR INDIA

THE green light has been given by the Indian authorities for the erection of the country's first nuclear power plant, with a capacity of 200 megawatts, which is expected to be ready by end of 1964. The installation of a further 700 mw. of nuclear power is to be completed in 1965. The nuclear fuel for most of India's nuclear stations is to come from the country's large thorium resources.

Why Finish Determines Quality

THE sales lady displays a pair of trousers. They are attractive. Some have modern automatic devices which serve the housewife the trouble of adjusting the trousers to different fabrics and prevent burning. Others are the old-fashioned kind: they are cheaper but are also well made. Even the price is prohibitive by our present standards. But if you take them up one by one and draw your fingers along the underside, you find them not entirely smooth, and here and there you even detect the first signs of rust.

The curtains are of modern and pleasing design. The material is strong and well-woven, the colours are bright and fresh. But if you hold the drapery up against the light, you find it uneven; there is more yellow in the upper rows of the design than in the lower. Here and there one of the colours has come off the one below it. Shades differ in various lengths of cloth. "No one will notice it once the curtains are hung," says the salesman, "but I admit that the finish is not up to the quality of either the cloth or the colours."

port market. There materials and design alone will not suffice. Customers in developed countries are used to not lay much stress on durability — which is also impaired by faulty finish. They want their goods not only well-made, but finished and good-looking. And in these countries which are now becoming used to industrial goods, we have to face the competition of the industries of Europe, America and Asia. In the last resort, finish will do a great deal to determine the scope of our exports.

Israel-Dutch Trade Increases

By H. BOAS

JERUSALEM (REUTERS). — TRADE between Israel and Holland increased greatly in the year 1958. The Chamber of Commerce, Netherlands Israel has announced. On the basis of the figures for the period January-November the total trade in 1958 was estimated at a value of £10.5m. In 1957, the trade balance was £10.5m.

Canadian-Israel National Mission Here to Get Facts A Community's Proud Share in Development

By a Correspondent

THE Canadian-Israel National Mission, which comes here during the biennial of the Canadian Jewish community, climaxes a long history of Canadian interest in Israel.

Canadian Jewry's concern for Israel and readiness to respond to her calls is one of the better-known chapters in its history. Perhaps the highlight in this long and fruitful association was the provision of \$1m. in 1927 for the redemption of the Erez Ref. The sum was an incredible one for those days, and was obtained after Meagan Unishkin came to Winnipeg to meet with Canadians at the Zionist Organization of Canada convention. The first purchase redeemed 10,000 dunams and later acquisitions augmented it until the Erez Ref. became one of the keystones of the land's agricultural rebirth.

In the early days of the Yishuv's development, the Weizmann Family of Western Canada invested in housing developments in Mesh Shearim, and the Pierce Family (whose son is presently Canada's Ambassador to Belgium) purchased some of the first citrus groves at Gan Hayim. The record of investment and support for Israel has continued unabated since. Canadian enterprise has been responsible for inaugurating Israel's first supermarket chain, a major touring and U-Drive business, a first-class plant, pencil, plastic, corrugated carton plants and most recently a fibreglass industry. Canadians have participated in the construction of the Beersheva Shopping Centre through the Rasco Company of Canada, and have been extremely active investors in Mehadrin Citrus Groves.

On the organizational and institutional front, the Zionist Organization of Canada, headed by Mr. Lawrence Freeman, is responsible for the United Israel Appeal. Keren Hayesod Drives held

annually across the country. The Canadian Jewish Congress, headed by Mr. Samuel Bronfman, conducts the United Jewish Relief Agency's (UJRA) annual campaign which supports such overseas projects serving Israel as the Malheur-JDC services and ORT. Investment dollars are provided through the Israel Bond Drives, held in Canada under the auspices of the Canada Israel Securities Ltd. Corporation.

In addition to the major funds derived through the UJA and the UJRA, which the Zionist Organization of Canada and the Canadian Jewish Congress conduct jointly across the country, the Canadian Jewish involvement has been an exceedingly active and fruitful one. There is hardly a family or individual in this community of 200,000 Jews dwelling in either one of its large cities or one of the 600 smaller centres where some Jewish population exists, who is not a participant in one, or several, or not infrequently all of the following projects and fund-raising appeals: Canadian Friends of the Hebrew University, Jewish National Fund, Histadrut, Hadassah Organization of Canada, Council for Israel Institutions, Weizmann Institute, Haifa Technion, Mizrahi Women's Organization, Pioneer Women's Organization, and others.

Canadian Jewry's overall contribution to Israel is probably second only to that of the American Jewry. The map of Israel is dotted with monuments to the Zionist purpose and dedication of this community. Nabat, Hadassah and the post-polio therapeutic centre at Sarafand are special projects of Canada's Hadassah Women. Her Mizrahi Women's Organization send substantial support annually to special projects of their organizations in the south and north. The Hebrew University's new campus owes seven of its major structures to the Canadian contribution, and important buildings at Bar Ilan University as well as a research centre at the Weizmann Institute at Rehovot.

At a Zionist Organization of Canada Convention in 1927 Canadian Jewry pledged \$1,000,000 to redeem the Erez Ref. Shown above is Aithal, ex-servicemen's settlement in the flourishing plain.

have been built by individual and community Canadian effort.

In more recent years, benefiting by the impetus to investment derived from the philosophy of the Israel Bond drive, successful large-scale programmes of investment in Israel have been launched in Canada on a national basis. Superol, F&C, CANPAL, and Ashkelon land sales have shared this new enthusiasm for the upbuilding of Israel's economy through direct participation in her business development.

Today the amount of aid and development funds for Israel derived from Canada comes altogether to something like \$15m. But the bond between Israel and Canadian Jewry has never been purely one of financial support. Canadians are today to be found in such kibbutzim as Urim, Kibbutz, Maagan Michael, Sa'ad and others. On the faculties of her leading academic and research institutions, on the staffs of her national institutions, in business, in literature and in public service, the personal contribution and involvement of Canadian immigrants reflects a serious interest in personal identification with the destiny of the State.

Canada has emitted the admiration and favourable comment of Jewish observers and visiting Jewish journalists because of her uniquely high level of Jewish school-education, embodying a stress on both Yiddish and Hebrew that is becoming an increasing rarity in Diaspora communities. Her networks of Zionist youth summer camps and Hebrew language camps; her Hillel Foundations at Universities across her provinces; have all contributed towards creating among second and third generation Canadian Jews willing bearers and shapers of their rich Jewish heritage.

Spirit of Unity

The present mission owes its origin to the spirit of unity that binds the Canadian Jewish Congress and the Zionist Organization of Canada in a working relationship that has produced much good for Israel, as well as worldwide Jewish causes. Together they created the National Fund-Raising Council for Israel, charged with mobilizing the country's sentiment and resources for Israel's emergency needs. Together they jointly created the Canada-Israel Securities Corporation, which fosters the sale of Israel Bonds in the country. As if in anticipation of

Ambassador Greet Canadian Delegation

As the official representative of Canada in Israel, I am happy to have this opportunity to extend greetings to the distinguished Canadian delegation which arrived in this country yesterday. While it is always a pleasure to welcome visiting delegations, it is particularly so on this occasion when the group comprises representatives of Jewish communities throughout Canada from my own native town of Halifax to Vancouver on the Pacific Coast.

I look forward to welcoming the members of the delegation to my home and meeting with them in my own name and on behalf of my colleagues of the Canadian Embassy. I should like to convey my cordial good wishes for a pleasant and interesting visit.

(signed)
Margaret Meagher
AMBASSADOR
OF CANADA

The World Zionist Executive's search for a wider constituency for Israel's cause in the lands of the Diaspora, Canadian Jewry long ago evolved this "united front" policy on all aspects of vital Jewish concerns.

The Mission comes to Israel in a spirit of earnest

concern for the welfare and the needs of the immigrant and of the established people of the land; it also comes in the spirit of an unofficial envoy of the Jewish community, young in the annals of world Jewish history, but mature in its abilities, its views, and its deeds.

Permanently disabled immigrants are given good prospects of a livelihood at a Malheur residential area. Funds for Malheur-JDC services are raised in Canada through the Canadian Jewish Congress fund appeals.

Gibraltar's Jewish youngsters visiting the Israel submarine "Tanin."

Jewish Life on 'The Rock'

By PAUL KOHN
Jerusalem Post Reporter

GIBRALTAR, though little more than a huge rock, is nevertheless a warm, friendly and lively little place. The balmy Mediterranean sun and the heterogeneous population of the compact town have a lot to do with it. The colourful and virtuous Spaniards are tempered by the sober British who reside here as if it were Buckinghamshire, with the Jews adding warmth and a flavour of their own. There is also a smaller seasoning of Indians, Maltese and Italians.

The Rock's only town has a population of 23,000, of whom 600 are Jews. The Jewish community is so much a part and parcel of Gibraltar that its influence is out of all proportion to its size. It was on a Saturday morning that we arrived for a day's visit. At the NAAFI stores, at the port entrance, we asked how long the shops stayed open, and were told by a Gibraltar Englishman, "until one o'clock, but the Jewish shops open for two hours after their Sabbath ends tonight." Further down the town's narrow, long Main Street, we were surprised to see a large Israeli flag fluttering from one of the buildings.

The venerable Mr. David Benaim, the honorary Consul, and his son, Moshe, explained that the flag was hoisted ceremonially every Friday afternoon by the Jewish children. It was lowered again after the Sabbath.

No Arab State has any consular representation in Gibraltar, and no Arabs live there.

The Mayor of Gibraltar and three of its seven elected Councillors are Jews. The Legislative Council is composed of seven elected councillors, two appointed members, and three ex-officio members, appointed in London by the Secretary of State for the Colonies. Mr. Joshua Haasan, the Mayor, is a member of the Association for the Advancement of Civil Rights party.

Arrived with British Jews came to Gibraltar together with the British in 1704. The community is entirely Sephardi and orthodox. At the same time, it is modern and one can find whole families after Sabbath morning services at bars like the "Troadero," stopping a moment to be settled another day. There are four synagogues, a popular Jewish Youth Club and Community Centre, a Talmud Torah, and Hebrew elementary school, where two hours of religious instruction are given daily and where the children's services are held on Sabbath. There is also a ritual bath and a burial society. There is no ritual slaughterhouse, but one has been set up across the Spanish border, and heifers are also brought in from Tangier, where 12,000 Jews live.

Gibraltar Jews live a conscious and full Jewish life. Inter-marriage is practically non-existent. And no Israeli would be lost in Gibraltar even though his only language was Hebrew.

The British authorities, under Governor Sir Charles Keightley, have shown understanding and have been extremely helpful in connection with the transit. "When you Jewish people resolve to do something, you will do it against all odds," says the Gibraltar Commissioner of Police, A. L. Abraham, who was posted in this country when the State was established.

Many of Gibraltar's Jews are engaged in commerce, carrying out most of their trade with Spain. (The only Israeli products I spotted in the shops were sweaters and wines.) Gibraltar is a wonderful shopping centre, with goods from all over the world being sold virtually tax-free. This has attracted a flood of "shopping tourists" that in 1959 numbered 300,000. In this respect, "Gib" has taken over from nearby Tangier, which is now part of Morocco. Zim liners often stop there to allow passengers two or three hours of shopping.

High up on the Rock, a magnificent panorama of the Western Mediterranean may be seen. A fine beach and the teeming night clubs which offer splendid Spanish music and floor shows at very little cost—are among the other attractions that make a visit to Gibraltar worthwhile for anyone travelling in the area or to North Africa.

Mission of Partnership

By ARTHUR SAUL SUPER

THE phrase "Israel and the Diaspora are partners," is one of those statements which is repeated so often that people sometimes forget that it really has meaning; and that its implications have more than one connection. This country and World Jewry are partners in what? In building up Israel? If that were all, then all the altruism would be on the side of the Diaspora because we here would only be helping ourselves. Are we partners then in building up a centre of Jewish life in Israel which would be the powerhouse for the regeneration of the values of our people throughout the world? That was the classical concept put out by Ahad Ha'am; and it still has a great deal of meaning.

But should we not go beyond even that, and insist that Israel and the Diaspora alike fulfil a joint purpose in being equal factors in the struggle to keep the Hebrew ideal alive in a world of soulless materialism? Neither Israel nor the Diaspora can fulfil this purpose without the other; and sometimes forgotten that this country might well, without the influence of World Jewry, become an increasingly narrow and one-sided presentation of Jewish values; indeed it might cease to represent those values as it fails increasingly to prey to the standardization of cultures which menaces all nations of the world, great and small.

Aim of Visit

Problems such as these were raised this week with the present writer by leaders of the First National Canadian Leadership mission which arrived in Israel. This body of men and women drawn from the vast breadth of the New World's northern half-continent, claims that they have come here not only with a practical purpose in mind, but also to see beyond the practical into how the values we cherish in common will be tangibly enshrined in the State of Israel. The mission is determined to make a thorough investigation of how best to assist Israel by raising the volume of gift dollars by the purchase of Israel Bonds and by exploring fields for private investment.

Industrial Magnate

Mr. Bronfman, one of the great industrial magnates of the North American continent, being president of Distillers Corporation-Searom Ltd., and a host of other undertakings. Honoured in Canada not only as a leader in constructive social and welfare activities, he personally leads the creative elements in Canadian Jewish life.

The writer travelled with him, as with Mr. Freeman, on their Western Cavalcade this spring when they accompanied Dr. Nahum Goldmann on a kind of high level Jewish communal "revivalist" mission across the West of Canada. He was struck by the eloquence with which Mr. Bronfman put across the message of Jewish need and the vision with which he tied those needs to the goal of Jewish life in its essential implication for human destiny. The Even Shmuel Village Centre in Lachish, which the Mission will visit, is named for him.

Mr. Lawrence Freeman succeeded over two years ago to the Presidency of the Zionist Organization of Canada and immediately inherited what might be termed in some respects a "handicap." He was the son of a famous father and mother, A.J. Freeman was a Zionist veteran and the most distinguished holder of the Presidency of the Canadian Zionist Organization. His mother, Lillian, was a very distinguished figure in social work in Canada and President of Hadassah. Comparisons were at once made and eyes looked penetratingly to see how the son would match the father's record. Today the feeling is that Lawrence has won his spurs as head of Canadian

BRONFMAN

FREEMAN

ment. When one considers the great strides Canadian Jewry have made in all these fields and the new horizons they have opened in sharing their wealth with Israel, one can justly estimate the importance of this highly representative mission.

The Canadian leaders are led by the two national figures who stand in the forefront of Canadian Jewry today. These are Samuel Bronfman, L.L.D. President of Canadian Jewish Congress, and Lawrence Freeman, L.L.D. President of the Zionist Organization of Canada.

Industrial Magnate

Mr. Bronfman, one of the great industrial magnates of the North American continent, being president of Distillers Corporation-Searom Ltd., and a host of other undertakings. Honoured in Canada not only as a leader in constructive social and welfare activities, he personally leads the creative elements in Canadian Jewish life.

The writer travelled with him, as with Mr. Freeman, on their Western Cavalcade this spring when they accompanied Dr. Nahum Goldmann on a kind of high level Jewish communal "revivalist" mission across the West of Canada. He was struck by the eloquence with which Mr. Bronfman put across the message of Jewish need and the vision with which he tied those needs to the goal of Jewish life in its essential implication for human destiny. The Even Shmuel Village Centre in Lachish, which the Mission will visit, is named for him.

Mr. Lawrence Freeman succeeded over two years ago to the Presidency of the Zionist Organization of Canada and immediately inherited what might be termed in some respects a "handicap." He was the son of a famous father and mother, A.J. Freeman was a Zionist veteran and the most distinguished holder of the Presidency of the Canadian Zionist Organization. His mother, Lillian, was a very distinguished figure in social work in Canada and President of Hadassah. Comparisons were at once made and eyes looked penetratingly to see how the son would match the father's record. Today the feeling is that Lawrence has won his spurs as head of Canadian

Zionism in his own right. He brought a distinguished background to the task. He holds a leading position in Canadian business as head of the department store in Ottawa which bears his father's name. A noted proponent of music, theatre and art in the Canadian National scene, he is a member of the Board of the Weizmann Institute, the American Fund for Israel Institutions, and the Canadian Israel Securities Corporation of which Samuel Bronfman is its Vice-President. This body takes care of Israel Bonds in Canada.

Mr. J.M. Frank, Treasurer of the Zionist Organization of Canada, is an insurance executive with a life-long record in Zionist work right up to the end of his career. Young Judas of his childhood, days to Member of the Zionist Action Committee and Treasurer of the J.N.F. and of the Hebrew Home in Canada. He has attended the last two Zionist Congresses in Jerusalem. Arthur Pascal is the director of the largest hardware store in the world, situated in Montreal, but gives as much time to the Combined Jewish Appeal and the United Israel Appeal.

Supermarket Founder

Bertram Leach is Canada's largest independent, wholesale food distributor and is best known in Israel as founder of the Tel Aviv supermarket. Superol. He is also Vice-President of the Zionist Organization of Canada and head of the Ottawa Jewish Community Council. Saul Hayman is one of Canada's legal luminaries who abandoned his practice to lead the Canadian Jewish Congress to the Jewish position in Canadian life. He is Executive Director of that body.

Another attorney now dedicates community service. Max Melamed, who holds the parallel position in the Zionist Organization of Canada, Mr. Matthew Ram, the Director of Fund Raising for the body, also abandoned a professional career to embrace community service while Martin Newman, who pioneered Israel Bonds in Canada, served as its National Executive Director.

Councillor Max Seigler of Montreal is in the grand old tradition of Jewish and general community workers. He has been identified all his adult life with the administration of Canada's largest city and is an equally vital

factor in the work of the Jewish community.

Veteran leader of the Jewish Labour movement, L. Kler, co-founder of the Histadrut campaign and Vice-President of the Canadian Jewish Congress; is on the mission. Mordecai Anis, representing the largest community, bulk large in the group; there is Joel Stern, President of the Rabbinical College of Canada and of Sternthal Textiles and many other companies, and Mr. William Gittus, who served as administrator of the Wartime Prices and Trades Board of Canada.

Going right across the prairies to the West, the Mission took in Sam Franklow, of Regina, Zionist Western regional chairman and Norman Ratner, Leo Paperny of Calgary, Wolfe Malenbaum, the Ontario Regional Chairman of the Canadian Jewish Congress, Mr. Jacobson, Regional Zionist Chairman and L. Raphael, of the national executive.

From Ottawa

Ottawa, in addition to Mr. Freeman and Mr. Leach, Messrs. G. Berger, J. H. Shonkman, Dr. Morton M. Berman and Hyman Benaim, the latter being Vice-Chairman of the Mizrahi Organization of Canada.

And bringing back some 6,000 kilometres over the vast continent, St. John's, New Brunswick sends Wm. Kaplan, Chairman of the Atlantic Provinces Region of the Zionist Organization and Mr. S.S. Jacobson of Halifax, Nova Scotia, while veteran L.C. Pollock represents historic Quebec.

The names in the list are a digest of leadership in Jewish, Zionist and general Jewish and national service in Canada. As such they will be received here as one of the most responsible bodies which has come to see Israel as it is, and as it can be made, by the partnership of which I speak at the beginning of this article.

The mission is organized by Mr. T. Kohn, Director-General of the Prime Minister's office as Chairman, Mr. Moshe Rivlin, Jewish Agency, Dr. Morton M. Berman and Mr. Michael Benaim, Keren Hayesod and Mr. Leo Krown and Mr. Michael Levy, Israel Bonds.

The mission, which also includes the wives of some members will be received by the President, will have a two-hour opportunity to give and be given by Premier David Ben-Gurion. The members will hear Dr. Nahum Goldmann. They will be taken by leaders of Banking, Commerce and the Jewish Agency behind the scenes of Israel economy and society. They will be the guests of the Defense Forces and they will, it is hoped, find a few fleeting hours of leisure also to meet the people of Israel in their homes and at their work. By all with whom they come in contact they will be cherished as dedicated men and women who are the ambassadors of a vital segment of world Jewry, which is having an increasing impact on the future of our people.

Double Diploma for Vocational Graduates

By Moshe Dean
Jerusalem Post Staff Writer

WE offer our girls a threefold education: says Mrs. Helen Kitzner, Director of the Alice Seligberg Vocational High School, in Jerusalem. She is seconded by Mrs. Vera Teur, chairman of the School Board.

"First, we teach them — and we never let them forget it — that they are women, and as such, they are home-makers. We teach them to take care of the home, of their children, and of their husbands. Second, we teach them a vocation: secretarial work, nutrition, arts and crafts, fashioning and laboratory assistance. They can leave school and go to work in their specialized field. Thirdly, we offer them a comprehensive education leading to a matriculation examination, if they are willing to do eight hours of strenuous practical and academic work a day. After graduation from Seligberg they can then continue their studies at the Hebrew University or at other institutions of higher learning. Great ability and strength of character are needed by a student to carry through this tremendous program. But armed with a vocation, these girls find it much easier to work their way through university."

And indeed, last Thursday, 21 of the graduating class of 100 received not only the cer-

Dr. Miriam Freund, President of Hadassah presents a matriculation and vocational high school certificate to the best graduates of the year. With her are Mrs. Vera Teur, chairman of the School Board and Mrs. Helen Kitzner, Director of the Alice Seligberg Vocational High School.

Monitors from the Ministry of Education, that they had completed a standard four-year vocational course, like the rest of their classmates, but also a regular secondary school diploma from the Ministry of Education.

The girls who received only the Ministry of Education certificate also received a certificate from the Ministry of Labor, which wanted to encourage them to continue their education in technical training seminars and courses or in nurses' schools, none of which demand matriculation certificates.

Age of Automation
"We are moving into the age of automation," Mrs. Kitzner says. "The emphasis in vocational training is shifting from manual work to adaptability, the ability to operate machines, but to supervise highly technical and complicated equipment. Those who prove unadaptable may soon be out of work. And the best preparation is a wide general and theoretical education which develops manual dexterity along with an open, inquiring mind."

The plan of the Ministry of Education and Culture to extend compulsory education by two post-elementary years is another aspect of Israel's changing life which will have far-reaching effects on Seligberg. The students will in future specialize more in their vocations and their

general education in the age group of 16-18. Then they will complete their Army stint. Following the Army they will return to Seligberg for another two years of additional training in some of the vocations.

Seligberg this week graduated its first class of such students who returned to school after completing their army service. The two courses, each of two years, were initiated at the request of the Ministry of Education, and the Ministry of Labor, which wanted to encourage them to continue their education in technical training seminars and courses or in nurses' schools, none of which demand matriculation certificates.

Of the 21 students who took the first course, 20 graduated this week. They are destined to fill positions in medical research laboratories at the Medical School, Hadassah, Kupat Holim and other institutions. Of the 18 who took the latter course, 14 graduated. They are to teach in vocational and regular high schools. Some are already at Dimona and other Negev settlements.

This is a remarkable record, Mrs. Kitzner says. "You must consider that they are in the morning to support themselves. They came to school only from four to six p.m. for two years they virtually never even went to a cinema."

Diary of A Housewife

By Hadassah Ben Haim

WE are dismayed to find how much the prices in England have risen. Vegetables and some fruits are cheaper in Israel. Furniture is cheaper here but as we do not intend to buy any furniture and we do buy some fruit, we do not reap any benefit. The bus fare from my aunt's town has gone up from three pence to six pence. The repulsive gas meter now takes shillings and half-pennies instead of shillings and pence as it used to. In some places it even costs two pence to spend a penny.

THE sun comes out unseasonably and everyone says what a bad sign that is. They say her age has been shining or not, it doesn't make the air any warmer or drier. We shiver in the drizzle and everyone else could swim if they were in Nahariya just now. Not that we swim at any time but high summer, but it sounds good. Aunt Dora and her consort Joe who have been in Israel, tell everyone how wonderfully we brave the English winter.

WE sit as close to the fire as is humanly possible. As it is very draughty at the back, we turn from side to side as our knees start to scorch. Aunt Dora lies on the couch telephoning all round to announce our arrival. On the whole the great British public is indifferent. Joe, oblivious, does his pools. He has a magic system based on passages from the Bible. He takes me for a series of letters to translate numbers. I give him the children's names.

THE Head of the House is watching the television, pausing only to tell me what to write in my letter to the children and how to spell things. The door into the hall must be opened very gently or the chimney smokes. The other door, into the kitchen,

may not be banged for the same reason. In spite of all precautions the soot falls down the chimney in large quantities whenever the wind blows and covers all the furniture with a black film.

THE Head of the House is very upset because his new light raincoat is grubby and smears after only a week's wear. I tell him it looks more English that way, as no true Englishman is happy in anything but a grubby coat. He is not consoled as he had thought he would cut a dash with it in Nahariya.

MY sister-in-law persuades me into green stockings. Am rather nervous about my daughter's comments when I return in them. All the girls say her age has been shining or not, it doesn't make the air any warmer or drier. We shiver in the drizzle and everyone else could swim if they were in Nahariya just now. Not that we swim at any time but high summer, but it sounds good. Aunt Dora and her consort Joe who have been in Israel, tell everyone how wonderfully we brave the English winter.

PERSONALLY, I think the most delicious of orange dishes is the simplest one, and yet it is so rarely served. Peel and slice oranges very thinly, sprinkle with sugar and chill. Serve in stemmed sherbet glasses, with a sprig of fresh mint, no more. Of course, you can have almost as refreshing and good a dish by pouring just a little Cusano on the fruit.

Orange Shortcake
You can make this of an ordinary butter cake or golden cake in large cake tin. Cook, split and put fruit inside and on top and then decorate with whipped cream. Or use this traditional shortcake recipe:

1 cup flour, 1 cup butter, 1 cup sugar, 1 egg, 1 cup milk. Mix dry ingredients, work in butter and add milk gradually. Turn on floured board and divide in two parts. Pat out, roll out and pat half in buttered round tin. Spread lightly with melted butter.

Patients' Paintings Sold

At a special correspondence art exhibition at the U.S. Art Gallery of Detroit, Michigan, seven oil paintings by Moshe Shalom, a long-term patient in Malen-J.D.C. Hospital for chronic diseases at Mahane Tziur, were sold during the first few days of the showing.

Shalom, an emigrant from Hungary, is crippled by multiple sclerosis which he contracted in a Siberian labour camp during the last World War. He discovered his artistic talent when the Malen-J.D.C. physicians ordered occupational therapy for him; he had never touched a paint brush before.

The exhibition in the United States, sponsored by Mr. Philip Shonewald, director of the Detroit Jewish Home at the gallery of Sam Field and Sharon Rosenthal, was reported at the end of December, and the unsold pictures were then due to be shown in other U.S. cities. Malen-J.D.C., which provides Shalom with all his painting

materials, arranged shipment of the pictures to the U.S. The net proceeds of the showings will go to the artist.

Shalom at work.

Workers' Wives Visit The Pipeline Factory

By Hadassah Gilson

NOW I know why my husband always wants to sleep when he comes home from work. He is tired. He is a worker in the Yotvata Gas Pipeline Factory, a modest little factory in the desert, a little way from the sea. He is a worker in the Yotvata Gas Pipeline Factory, a modest little factory in the desert, a little way from the sea. He is a worker in the Yotvata Gas Pipeline Factory, a modest little factory in the desert, a little way from the sea.

Abshelon Tax Aids Toy Fund

THE Abshelon Rotary Club and the local Postmaster's Office, "Babylon," brought a check to a club by organizing the annual cinema performance at the Abshelon Cinema. Customers are given "honorary" tickets which carry a special voluntary "tax" in aid of the Jerusalem Post Hebrew Toy Fund, the Ma'ayan School for Disturbed Children and the local high school library. As an additional attraction persons attending the performance were able to bid at an American auction for a toy airplane presented by K.L.M.

All the proceeds from the event have not yet been collected but The Toy Fund should receive 2,200 as its share of these "taxes."

Toy Fund total now stands at 11,400, including the Abshelon Rotary and the Postmaster's Office.

PREJUDICE and PROTEIN

By Dr. Elhanan Yaron

MAN'S innate conservatism is nowhere more marked than in his food habits and especially in this country we have been witness to hunger in the midst of plenty (more or less) because of prejudice against certain foods. The Yemima who refused to eat margarine because it was not kosher, the Arab who could not eat chicken because it was not kosher, the Jew who could not eat fish because it was not kosher, the Christian who could not eat pork because it was not kosher, the Muslim who could not eat beef because it was not kosher, the Hindu who could not eat beef because it was not kosher, the Buddhist who could not eat beef because it was not kosher, the Jain who could not eat beef because it was not kosher, the Sikh who could not eat beef because it was not kosher, the Zoroastrian who could not eat beef because it was not kosher, the Parsi who could not eat beef because it was not kosher, the Jew who could not eat pork because it was not kosher, the Christian who could not eat pork because it was not kosher, the Muslim who could not eat pork because it was not kosher, the Hindu who could not eat pork because it was not kosher, the Buddhist who could not eat pork because it was not kosher, the Jain who could not eat pork because it was not kosher, the Sikh who could not eat pork because it was not kosher, the Zoroastrian who could not eat pork because it was not kosher, the Parsi who could not eat pork because it was not kosher, the Jew who could not eat beef because it was not kosher, the Christian who could not eat beef because it was not kosher, the Muslim who could not eat beef because it was not kosher, the Hindu who could not eat beef because it was not kosher, the Buddhist who could not eat beef because it was not kosher, the Jain who could not eat beef because it was not kosher, the Sikh who could not eat beef because it was not kosher, the Zoroastrian who could not eat beef because it was not kosher, the Parsi who could not eat beef because it was not kosher, the Jew who could not eat pork because it was not kosher, the Christian who could not eat pork because it was not kosher, the Muslim who could not eat pork because it was not kosher, the Hindu who could not eat pork because it was not kosher, the Buddhist who could not eat pork because it was not kosher, the Jain who could not eat pork because it was not kosher, the Sikh who could not eat pork because it was not kosher, the Zoroastrian who could not eat pork because it was not kosher, the Parsi who could not eat pork because it was not kosher, the Jew who could not eat beef because it was not kosher, the Christian who could not eat beef because it was not kosher, the Muslim who could not eat beef because it was not kosher, the Hindu who could not eat beef because it was not kosher, the Buddhist who could not eat beef because it was not kosher, the Jain who could not eat beef because it was not kosher, the Sikh who could not eat beef because it was not kosher, the Zoroastrian who could not eat beef because it was not kosher, the Parsi who could not eat beef because it was not kosher, the Jew who could not eat pork because it was not kosher, the Christian who could not eat pork because it
